

AI API Testing Platform

From an API contract to a verified fix. Engines prove, agents propose, people decide — around one canonical test case.

Python · FastAPI

WHAT COMES IN

API contracts
OpenAPI 3 · Swagger 2 · (R3) GraphQL

Environments & logins
dev / qa / staging · never prod

Business content
Jira stories · acceptance criteria

Existing assets
Karate suites · CSV data · QA catalog

Runtime signals
CI deploys · Jira webhooks · schedules

Policy
roles · PHI rules · thresholds

THE TRUTH RAIL — the model and the canonical case, read and written by every layer
